After a welcome aperitif at Weingut Knab, the tour begins in our historic Unimog, built in 1970. We drive through Endingen's old town and into the impressive sunken loess lanes of the Kaiserstuhl, shaped by Ice Age deposits and of great importance to the region's viticulture.

Our destination is the Amolterer Heide, the oldest nature reserve in the Kaiserstuhl. Surrounded by rare flora and fauna, this is where some of our finest vineyard sites are located. Here, you will gain fascinating insights into the geology of the Kaiserstuhl and its influence on our wines.

Back at the winery, a guided wine tasting awaits you, complemented by a visit to our barrique cellar and an introduction to the philosophy of our family estate — rooted in tradition, shaped by terroir, and committed to natural, forward-looking viticulture.

<b>Duration:</b>	approx. 3 hours
